Writing you a letter. Belay the request for Doug's address. Maybe

some of the fellows know where West is. I hope, I owe him a letter.

Dear Doc Post;

I have been getting my copies of the Aztec News Letter

regularly and to say that I enjoy them would be putting it mildly. Thanks a lot to you and your staff, its swell geting news of former Aztecs. Do you know the addresses of Clyde West and Doug Inman? The last time I heard from them Clyde was in Alaska and Doug was in Indiantown Gap, Penn. Red White is the only Aztac I've seen in ten months, the only other one I know of in this region is Louie Estep. His address is, I belive, Ens. Louis Estep, U.S.N.R, U.S. Naval Section Base , Trinidad, B. W. I . Red and I get Together ocasionaly and tell each other how we will paint the old town red when we get back. The only town on this island, Charllot Amalie, could stand a good coat of paint but its not worth the effort.

In passing I would like to point out that I am teaching myself to type so don't be alarmed if you see some odd combinations in punctuation and peculiar spelling. The typewriter I'M using is rather strange if great care is not taken it also writes Sanskrit and Greek.

In geography 2 I learned that the Caribbean area was rather mild in climate, well when the temperature drops to seventy every one has to put on coats to keep from freezing.

The natives on this bee hive of inertia are about 99% negros, the language is English, but I defy any one to understand it.

Well, the 6th. copy just arrived (Aztec News Letter) and I am writing you a letter. Belay the request for Doug's address. Maybe some of the fellows know where West is. I hope, I owe him a letter. Well, Doc my fingers are getting sore from pounding this typewriter so I'll call it a day. Keep sending those letters, they'll swell.

Sincerely

*Charles*
