1942

used

Dear Dr. Post,

I suppose this letter, or should I say note, will be a surprise to you. It's been a long time since we've seen each other.

Maybe I should refresh your memory as to who I am. — Remember the student who did some lettering or printing on one of your Geography posters. I think it was in 1937. Since then I have received my B.S. degree in Animal Husbandry at the Univ. of California (Aggies) and have joined the Navy. I'm what they call aviation cadet here at Corpus Christi.

I was prompted to write this note because I read Bob Bauder's News Letter^{#1} and really think it's a wonderful idea. Your work, I'm positive, is being greatly appreciated by all of the boys, and because I went to State for two years and knew you personally — I wanted to add my little bit.

As far as other "States" are concerned I think you have a record of all that I know of except a Tom Milligan who went there

when I did (1931-1937) Tom is in the R.A.F.
and is now training somewhere in Texas. College
Station I believe.

I heard that Lewis Gapp^{ΩΞ} and Chappie Bone^{ΔΠΘ}
are with the Canadian R.A.F. This is purely
scuttlebutt on my part. (That's Rumor in Navy
language) Incidentally - I had the doggonest
time learning that the floor was a "deck" and
"1400" meant 2:00 P.M. and many other Navy terms.

I've seen most all of the State boys here at
Corpus already, in spite of the fact that it's a big
place. Right now I've been subjected to a
little delay in training, because I'm in the
hospital. They removed my stitches last Wednesday
and I'll be out of here in a couple of weeks
I hope. - Maybe I should explain myself a little
more - No air accident - just a minor operation
for a cyst teratoma.

I guess I've held your attention long enough
for now. I'd enjoy hearing from you when
you get time - and I really think you're doing
a wonderful service for the boys in the
Service.

Sincerely

A/c Robert H. Anderson
