

June 8, 1943

Dear Doc. Post,

Well, here's a note that
I've meant to write for a
long time.

I can't figure out how I
spent 2 1/2 years at dear old
state, without meeting a person
that is so thoughtful of others
as you are. May I join
the many others in praising
the wonderful job that you
are doing.

I left San Diego in 1941 and
came to Washington to work for
the F.B.I. If any of that
Aztec gang gets near the Capital,
I would sure like to see them.

The news letter really shows how the Aztec cog of this great machine is rolling. My best regards to the whole gang and a special congratulations to Dr. Reiffer.

I hope this little bit will help the cause that you are fulfilling. When I get back to San Diego I'm going to ~~to~~ ^{make} ~~going~~ a special point of meeting you. I'm looking forward to it Doc.

Sincerely

Jim Bunker
